"grandma Margaret ", as well so fondly called her, was such a loving woman, that will always have a special spot in my heart. She and my mom, Betty Morris, had great times with their grandkids playing, so many special times. I cannot express how much it meant to me, when she came to mom's celebration of life service. She was the type of person that brightened a room and made you feel good every time you saw her. She called me several times after mom passed, to give me nuggets of wisdom. Thank you for sharing your sweet mom, grandmother with so many of us. She left a lasting impression. I know mom was there to welcome her to heaven and to catch up. I can only imagine the precious memories you have to cherish with her.... As I have many. Terrie Collins

Although we have known Margret and Joe only since moving to Grand Village in 2024, we love them and are so sad Margaret has left this grand village - but we know she has moved to the grandest village of all and hope to see her there some great day!

Margaret brought life and light to our Thursday morning Bible Study. Whenever the discussion would pause, I looked to Margaret to add words of wisdom. She loves Jesus and knew Scripture like it was her best friend. Kathy

Margaret, as I've known her for 45 years, is one of the kindest souls (with a wickedly sharp wit) that the world has seen. I met her before I had my first child while learning to play duplicate bridge in 1980. She was an excellent player and a compassionate competitor. Because of her generosity, my husband Jeremy Hess (who's known her even longer!) and I got to cruise to the Panama Canal. She gave us the bridge equipment we needed to serve as the bridge professionals on the cruise for a nominal daily fee. We'd see her at bridge games but lost touch when we stopped playing in person. Then she and Joe moved to Grand Village and she met and became a close loving friend with my best friend Pattie Williams, who already lived there. And I got to have good times with her again. As if that wasn't synchronic enough, my grandchild and her grandchild got to know each other a couple of summers ago and discovered their grandmothers had known each other since the last millennium! One might think that dropping your body at age 90 is not to be unexpected. But with Margaret it was. I expected her...with all her energy and love and faith...to likely outlast us all! And I want to add that my grandchild Jay is also mourning her passing and wants Joe to know how much she cares.

Typos...supposed to say synchronistic...and also that Jay wants Joe to know how much he cares.
